

Annual Activity Report (AAR) Krembil

Salesforce Sandbox -- Client Demo Guide

Thursday, 29 May 2026 | 11:00 AM

UHN Business Hub x Krembil Research Institute

CONFIDENTIAL -- For demo purposes only. Not for distribution.

SECTION 1 -- EXECUTIVE SUMMARY

The Annual Activity Report (AAR) for Krembil Research Institute is a fully custom Salesforce application built on the UHN Business Hub. It replaces the manual paper/spreadsheet AAR process with a structured, auditable, and reportable digital workflow -- covering every facet of a scientist's annual output.

Data Model at a Glance

Component	Detail
Architecture	Hub-and-spoke: 1 master + 1 Master-Detail child (AAR_Award__c) + 12 Lookup children
Master Object	AAR_Submission__c -- one record per scientist per year
Custom Objects	15 total (14 AAR objects + Contact extended with ORCID)
Custom Fields	174 fields across all objects
Record Page	AAR Submission Record Page -- active as Org Default; highlights panel, 9-section Details layout, 13-list Related tab, Activity sidebar
Permission Sets	AAR_Admin (full CRUD + viewAllFields on all 14 AAR objects) / AAR_PI_Access (CRE, explicit FLS on all fields)
Security Profiles	AAR Scientist / AAR Research Admin / AAR Institute Leadership [Phase 2]
Automation	3 Flows active (submit trigger, return notification, annual rollover) + Approval Process [Phase 2]
Validation Rules	6 rules active: 5 on AAR Submission + 1 on AAR Publication
Reports/Dashboards	3 custom report types, 4 key reports, 2 dashboards [Phase 2]

Object Inventory

Object (API Name)	Category & Purpose
AAR_Submission__c	CORE -- Master record; one per scientist per year
Contact (extended)	PROFILE -- Scientist identity; adds ORCID, institute, career fields
AAR_Appointment__c	PROFILE -- UHN & University appointments
AAR_Grant__c	RESEARCH -- All funding (submitted / active / declined)
AAR_Publication__c	RESEARCH -- Peer-reviewed, non-peer-reviewed, in-progress
AAR_HQP__c	PEOPLE -- Trainees and supervised staff
AAR_Teaching__c	PEOPLE -- Courses, workshops, grand rounds
AAR_Award__c	RESEARCH -- Prizes, fellowships, honours
AAR_Presentation__c	ENGAGEMENT -- Keynote / plenary presentations
AAR_IP_Disclosure__c	INNOVATION -- Technology disclosures to TDC
AAR_Patent__c	INNOVATION -- Patent filings (provisional -> issued)
AAR_License__c	INNOVATION -- Licensing agreements
AAR_Startup__c	INNOVATION -- Spin-off companies
AAR_Outreach__c	ENGAGEMENT -- Outreach, media, conference attendance
AAR_Professional_Activity__c	ENGAGEMENT -- Committee work, journal reviewing, consulting

Key Workflow States

Status	What it means
--------	---------------

Draft

	Scientist is actively filling in the form
Submitted	Scientist has checked all compliance boxes and submitted
Under Review	Research Admin (step 1) is reviewing
Approved	Institute Director (step 2) has approved
Returned for Revision	Admin or Director rejected; scientist notified by email

SECTION 2 -- PRE-DEMO SETUP CHECKLIST

Complete the following in the sandbox at least 30 minutes before the demo.

Sandbox Users to Pre-create

- ☐ Scientist user: Dr. Sarah Chen -- Profile: AAR Scientist | Krembil Pillar: Brain & Spinal Cord | Career Stage: Mid Career
- ☐ Research Admin user: Admin User -- Profile: AAR Research Admin | Assigned Pillar: Brain & Spinal Cord
- ☐ Director user: Institute Director -- Profile: AAR Institute Leadership

Seed Data Required

- ☐ Contact record for Dr. Sarah Chen with ORCID field populated
- ☐ AAR Submission (Draft) for Dr. Sarah Chen, Reporting Year 2025 -- auto-created by rollover Flow or created manually
- ☐ Pre-populate 2 x AAR_Grant__c child records (one Active, one Submitted) to save time during demo
- ☐ Pre-populate 1 x AAR_Publication__c (Peer-Reviewed, with Epub Date) so the Rollup Summary counter shows a non-zero value
- ☐ Pre-populate 1 x AAR_HQP__c (PhD Student, Primary Supervisor)

Browser Tabs to Have Open

- ☐ Tab 1 -- Logged in as Dr. Sarah Chen (Scientist)
- ☐ Tab 2 -- Logged in as Research Admin
- ☐ Tab 3 -- Logged in as Institute Director / Leadership
- ☐ Tab 4 -- Reports & Dashboards (Institute Research Overview)

Technical Checks -- Phase 1 (Deployed & Active)

- ☐ DONE: Confirm all 3 Flows are Active in Setup > Flows (VAL-02 -- IDs verified in sandbox)
- ☐ DONE: AAR_Submission__c, AAR_Publication__c, AAR_Award__c and all 12 child objects deployed with fields
- ☐ DONE: 5 validation rules active on AAR_Submission__c + 1 on AAR_Publication__c
- ☐ DONE: Lightning Record Page 'AAR Submission Record Page' deployed and activated as Org Default -- highlights panel, Details tab (9 sections), Related tab (13 lists), Activity sidebar
- ☐ DONE: Activities enabled on AAR_Submission__c -- Activity timeline and Chatter sidebar are live
- ☐ DONE: AAR_Admin and AAR_PI_Access permission sets updated with full field coverage for all 14 AAR objects (incl. AAR_Award__c, AAR_Publication__c, and all Krembil-era AAR_Submission__c fields)
- ☐ Activate Lightning Record Page if not yet org default: Setup > Object Manager > AAR Submission > Lightning Record Pages > Activate > Org Default
- ☐ Verify email deliverability is ON in Setup > Email > Deliverability (set to All Email for sandbox testing)
- ☐ Clear browser cache / use incognito tabs for clean demo views

Phase 2 Blockers -- NOT Yet Deployed (skip these in today's demo)

- ☐ [P2] Approval Process on AAR_Submission__c -- 2-step (Research Admin + Director)
- ☐ [P2] OWD for AAR_Submission__c set to Private in Sharing Settings
- ☐ [P2] Criteria-based Sharing Rule for pillar-scoped admin access
- ☐ [P2] 3 Custom Profiles: AAR Scientist, AAR Research Admin, AAR Institute Leadership
- ☐ [P2] FLS: WOS__c hidden from AAR Scientist; TDC_Code__c hidden from AAR Scientist

[] [P2] Duplicate Rule preventing 2 submissions for same Scientist + Reporting Year

[] [P2] Rollup Summary fields on AAR_Submission__c (requires Lookup->MasterDetail conversion)

[] [P2] Reports and dashboards (Institute Research Overview, Submission Status by Pillar)

PRE-DEMO TIP

Log in as each persona in separate Chrome profiles (not just tabs) to avoid session conflicts. Use Chrome Profile 1 = Scientist, Profile 2 = Admin, Profile 3 = Director.

SECTION 3 -- INTERACTIVE DEMO SCRIPT

Estimated total demo time: 35-45 minutes. Talking points are in *italic* below each step.

PERSONA: Dr. Sarah Chen -- AAR Scientist

Est. time: 15 min

1 Open the AAR Submission for 2025

- Navigate to the AAR Submissions tab and open the Draft record.
- TALKING POINT: 'The system automatically created this blank submission on January 1st via a scheduled Flow -- every active scientist gets one. No one has to remember to start a form.'
- Show the Identity section: Scientist name, Reporting Year, Status = Draft, Pillar = Brain & Spinal Cord.

2 Complete the Research Profile section

- Fill in Research Keywords (multi-select picklist -- select 3).
- Enter a short Lay Summary of Research.
- Set Protected Time for Research to 60%.
- TALKING POINT: 'Keywords power the cross-institute dashboards. Leadership can filter all outputs by research theme across all pillars.'

3 Fill in the Context section (Circumstances Affecting Productivity)

- Enter a note: 'Parental leave Jan-Apr 2025.'
- Set Leave Start Date = 01/01/2025, Leave End Date = 30/04/2025.
- TALKING POINT: 'This section is highlighted prominently on the layout -- it tells evaluators HOW to read the output data. It is the single most important context field. Evaluators see this before they see any publication or grant numbers.'

4 Add a new Publication

- Scroll to the AAR Publication related list. Click New.
- Select Publication Type = Peer-Reviewed.
- Enter Article Title, Author List, Source/Journal, ePub Date (required for peer-reviewed), and DOI.
- TALKING POINT: 'Scientists self-enter publications. Future phase will auto-populate from ORCID API -- highest priority integration in the roadmap.'
- Note: the WOS field is invisible to the scientist (FLS). Show the admin tab later to contrast.

5 Add a new HQP Trainee

- Scroll to HQP related list. Click New.
- Enter: Last Name = Patel, First Name = Arjun, Position = PhD Student, Employment = Full-Time, Supervisor Role = Primary Supervisor.
- TALKING POINT: 'Every trainee row feeds the HQP Pipeline report for CIHR/NSERC funder reporting. Research Admin no longer needs to manually compile trainee counts.'

6 Attempt to submit WITHOUT compliance checks

- Change Status picklist to Submitted and click Save.
- EXPECTED RESULT: Validation rule fires -- 'MyLearning training must be completed before you can submit your AAR.'
- TALKING POINT: 'The system enforces the five compliance declarations. Scientists cannot skip them. This replaces the honour-system checkbox email that used to get ignored.'

7 Complete Compliance Declarations and Submit

- Tick all five checkboxes: Mandatory Training Complete, Patient Engagement Survey, CMaRS Updated, Grants in Good Standing, Form Confirmed Accurate.
- Optionally enter Form Feedback text.
- Change Status to Submitted. Save.
- EXPECTED RESULT: Status saves as Submitted. Submitted Date/Time auto-populates (Flow). Confirmation email sent to scientist. Notification email sent to Research Admin for Brain & Spinal Cord pillar.

- TALKING POINT: 'Status change triggers two automated emails -- scientist gets a receipt, admin gets an alert. Zero manual follow-up required.'

PERSONA: Research Admin -- Brain & Spinal Cord Pillar

Est. time: 10 min

8 Admin opens their submission queue

- Switch to the Admin browser tab.
- Show that the admin can see Dr. Chen's submission (Sharing Rule grants Read/Write access to all Brain & Spinal Cord submissions).
- TALKING POINT: 'Sharing rules mean admins see only their pillar -- not all submissions across the institute. Data is scoped automatically.'

9 Review Publications and enter the WOS field

- Open Dr. Chen's submission. Navigate to the Publication related list.
- Open the peer-reviewed publication record.
- SHOW: The WOS (Web of Science ID) field is now VISIBLE to the admin.
- Enter a sample WOS ID: WOS:000123456789.
- TALKING POINT: 'This field is hidden from scientists via Field-Level Security. Admins and leadership enter WOS IDs after cross-checking the Web of Science database -- keeping source-of-truth integrity.'

10 Initiate the Approval Process -- Step 1

- From the AAR Submission record, click the Submit for Approval button (or show the Approval section).
- Admin approves at Step 1.
- EXPECTED RESULT: Record moves to Under Review, Step 2 approval request sent to Institute Director.
- TALKING POINT: 'Two-step approval mirrors the real Krembil process: Research Admin verifies data completeness, then the Institute Director gives final sign-off.'

PERSONA: Institute Director -- Leadership View

Est. time: 7 min

11 Director approves the submission

- Switch to the Director browser tab.
- Open the pending approval item from the Approval notification or Approval History.
- Approve.
- EXPECTED RESULT: Status = Approved. No further workflow steps.
- TALKING POINT: 'Alternatively, the director can Return for Revision -- which triggers an automated email to the scientist with reviewer notes from the Chatter feed.'

12 Demonstrate the Institute Research Overview Dashboard

- Navigate to the Dashboards tab -> Institute Research Overview.
- Show the four dashboard components:
 - (a) Submission Rate by Pillar -- bar chart showing % complete across Brain & Spinal Cord, Arthritis, Vision, Neurosciences.
 - (b) Total Active Funding -- sum of Amount Received This Year for Grant_Status = Funded-Active.
 - (c) Publications by Career Stage -- grouped bar by Early / Mid / Senior Career.
 - (d) HQP Pipeline -- count by Position Title (PhD, PostDoc, Coordinator, etc.)
- TALKING POINT: 'Leadership had zero real-time visibility before. This dashboard refreshes on demand. Every metric traces back to scientist-entered data, now structured and reportable.'

13 Show Submission Status by Pillar Report

- Navigate to Reports -> Submission Status by Pillar.
- Show that you can filter by Status, Pillar, Career Stage, and Reporting Year.
- TALKING POINT: 'At the end of the reporting season, leadership runs this to see who has and hasn't submitted. Historically this was a manual email-chase process.'

SECTION 4 -- DEMO WRAP-UP & TALKING POINTS

Value Delivered -- Key Messages

Value Area	Message
Scientist burden	Structured form replaces blank Word doc. Rollover creates submissions automatically. ORCID integration (roadmap) eliminates manual publication entry.
Admin efficiency	Pillar-scoped data access. WOS and TDC enrichment in-platform. Approval workflow replaces email chains.
Leadership insight	Real-time dashboard vs. annual compiled spreadsheet. Cross-pillar comparisons in one view.
Compliance	Five validation-enforced declarations. Cannot submit without checking every box. Audit trail via Status history.
Scalability	Binding configuration (custom metadata) extends framework to other institutes (e.g. Toronto Western, PM&R) with no code changes.
Future integrations	ORCID (High), MyLearning (Medium), CMaRS (Medium), CIHR/NSERC (Low) -- roadmap items discussed.

Anticipated Client Questions & Answers

Q: Can a scientist edit their submission after it has been Submitted?

A: Not by default -- once Submitted, the record is locked pending admin review. If revision is needed, the admin returns it (Status = Returned for Revision), which unlocks it and notifies the scientist via email.

Q: What happens if a scientist misses the deadline?

A: The Submission Status by Pillar report flags all records still in Draft past the deadline. Research Admins can view these records directly (sharing rule) and follow up. A reminder email Flow (not in v1, roadmap item) can be scheduled.

Q: How are new scientists added for the next reporting year?

A: Set Is_Active_Researcher__c = true on their Contact. The scheduled annual rollover Flow (runs January 1st) automatically creates their blank AAR_Submission__c. No admin action needed.

Q: Can we add Krembil-specific fields in the future?

A: Yes -- the framework is fully unmanaged. Any additional picklist values, text fields, or child objects can be added to the existing objects without touching the core framework. Page layouts are independently configurable per object.

Q: Are TDC codes visible to the scientist?

A: No. TDC_Code__c on IP Disclosure, Patent, License, and Startup objects is hidden from the AAR Scientist profile via Field-Level Security. Only AAR Research Admin and Institute Leadership profiles can read or write these fields.

SECTION 5 -- REQUIREMENTS COVERAGE MATRIX

This matrix maps each AAR requirement to the demo step that validates it.

Requirement	Validated in Demo Step(s)
Scientist self-service annual report entry	Steps 1-5
Automatic form creation each January	Step 1 (rollover Flow)
Compliance declarations block premature submission	Step 6
Submission timestamp auto-populated	Step 7
Email notifications on submit and on return	Steps 7, 11
Two-step approval: Admin then Director	Steps 10, 11
Pillar-scoped data access for Research Admins	Step 8
WOS field hidden from scientists (FLS)	Steps 4, 9
TDC Code fields hidden from scientists (FLS)	Section 4 Q&A
Rollup summary counters on master record	Step 7 (after publication added)
Duplicate year prevention	Pre-demo (validation rule)
Grant amount validation (received <= total)	Pre-demo (validation rule)
Peer-reviewed publication requires ePub Date	Step 4
HQP pipeline data for CIHR/NSERC reporting	Steps 5, 13
Real-time leadership dashboard	Step 12
Submission status report by pillar	Step 13
Context fields (leave, circumstances) on layout	Step 3
Annual rollover creates blank submissions	Step 1
Sharing rule confines admin to own pillar	Step 8
FLS on WOS__c restricts to Admin/Leadership	Steps 4, 9

Out-of-Scope for Today's Demo (Roadmap)

Item	Priority
Rollup Summary fields (requires Lookup -> MasterDetail conversion)	High -- Phase 2 (next sprint)
2-step Approval Process on AAR_Submission__c	High -- Phase 2 (next sprint)
Custom Profiles: AAR Scientist, Research Admin, Institute Leadership	High -- Phase 2
FLS: hide WOS__c and TDC_Code__c from Scientist profile	High -- Phase 2
OWD = Private + pillar-based Sharing Rule	High -- Phase 2
Duplicate Rule: one AAR per scientist per year	Medium -- Phase 2
Reports and Dashboards (4 reports, 2 dashboards)	Medium -- Phase 2
ORCID API auto-populate publications	High -- Phase 3
MyLearning API auto-confirm training	Medium -- Phase 3
CMaRS API sync for disclosure status	Medium -- Phase 3
CIHR / NSERC grant pre-population	Low -- Phase 3
Submission deadline reminder Flow	Medium -- Phase 2
Cross-institute AAR framework reuse (PM&R etc.)	Phase 4+

SECTION 6 -- QUICK REFERENCE CARD

Keep this visible during the demo as a quick navigation reference.

Object API Names (copy-paste ready)

Label	API Name
AAR Submission	AAR_Submission__c
AAR Appointment	AAR_Appointment__c
AAR Grant / Funding	AAR_Grant__c
AAR Publication	AAR_Publication__c
Highly Qualified Personnel	AAR_HQP__c
Teaching & Instruction	AAR_Teaching__c
Award & Honour	AAR_Award__c
Invited Presentation	AAR_Presentation__c
IP Disclosure	AAR_IP_Disclosure__c
Patent	AAR_Patent__c
Licensing Agreement	AAR_License__c
Startup Company	AAR_Startup__c
Outreach & Media	AAR_Outreach__c
Professional Activity	AAR_Professional_Activity__c

Automation Quick Reference

Flow / Process Name	Trigger / Status
Flow_AAR_Submission_Trigger	ACTIVE -- Status changes to Submitted (ID: 301Aq000012zVjeIAE)
Flow_AAR_Return_Notification	ACTIVE -- Status changes to Returned for Revision (ID: 301Aq000012zVjdIAE)
Flow_Annual_AAR_Rollover	ACTIVE -- Scheduled daily, fires January 1st (ID: 301Aq000012znGfIAI)
Approval_Process_AAR_Submission	[PHASE 2] 2-step approval: Research Admin then Institute Director

Profiles & Permissions Summary

Profile	Access
AAR Scientist	Read/Write own records only. WOS and TDC fields hidden.
AAR Research Admin	Read/Write all records in assigned Pillar. Can edit WOS and TDC fields.
AAR Institute Leadership	Read/Write all records across all Pillars. Full field visibility.

DEMO SUCCESS CRITERIA

By end of demo the client should have seen:

1. A scientist complete and submit a full AAR with child records
2. Compliance validation blocking premature submission
3. Admin receiving notification and reviewing the submission
4. Two-step approval completing and transitioning to Approved
5. A live dashboard with cross-pillar research metrics
6. Field-Level Security hiding admin-only fields from scientist view

SECTION 7 -- INTERACTIVE SANDBOX VALIDATION GUIDE

This guide walks you through 32 hands-on tests to confirm that every part of the AAR Krembil Salesforce application is working correctly in the sandbox. You do not need a technical background to complete these tests -- every step tells you exactly where to click, what to type, and what you should see. Mark each test PASS or FAIL as you go. Phase 1 tests (VAL-01 to VAL-32) cover what is live in the sandbox today. Items marked PHASE 2 are in the next sprint.

Phase	What you are testing Approx. time
Phase 1	Quick System Health Check (setup, flows, security) 10 min
Phase 2	Scientist Experience -- filling in and submitting the AAR 25 min
Phase 3	Research Admin Experience -- reviewing and approving 10 min
Phase 4	Institute Director Experience -- final approval and dashboards 8 min
Phase 5	Data Integrity Spot Checks -- duplicate and amount rules 5 min
Scorecard	Record your PASS / FAIL results and sign off 2 min

HOW TO USE THIS GUIDE

1. Open the sandbox URL in Chrome and keep this PDF open beside it.
2. Follow the 'WHERE TO GO' path in each card to reach the right place in Salesforce.
3. Perform the numbered steps exactly as written.
4. Check 'YOU SHOULD SEE' -- if what you see matches, mark PASS. If not, mark FAIL.
5. Work through phases in order. Each phase depends on the one before it.
6. Return the signed scorecard page at the end of the session.

PERSONAS REQUIRED

You will need to be logged in as three different users at different points.

- SCIENTIST: Dr. Sarah Chen (AAR Scientist profile)
- ADMIN: Research Admin -- Brain & Spinal Cord (AAR Research Admin profile)
- DIRECTOR: Institute Director (AAR Institute Leadership profile)

Phase 1 requires a System Administrator login. Phases 2-5 use the personas above.

Use separate Chrome profiles or incognito windows for each persona.

PHASE 1 -- Quick System Health Check

Log in as System Administrator. Estimated time: 10 minutes.

VAL-01 All Custom Objects, Record Page, and Permission Sets Are Deployed

WHERE TO GO: Gear icon (top-right) > Setup > Quick Find > type 'Object Manager' > Enter

1. In Object Manager, type 'AAR' in the search box at the top of the list.
2. Count the results. You should see 14 objects whose names start with 'AAR_'.
3. Click each object name. On the Details tab, confirm Deployment Status = Deployed.
4. For AAR_Submission__c: confirm Activities = Enabled and Chatter = Enabled.
5. From AAR_Submission__c > Lightning Record Pages, confirm 'AAR Submission Record Page' has Type = Org Default.
6. Navigate to Setup > Permission Sets and confirm AAR_Admin and AAR_PI_Access both exist.

YOU SHOULD SEE:

- 14 AAR_ objects listed: AAR_Submission__c, AAR_Appointment__c, AAR_Grant__c, AAR_Publication__c, AAR_HQP__c, AAR_Teaching__c, AAR_Award__c, AAR_Presentation__c, AAR_IP_Disclosure__c, AAR_Patent__c, AAR_License__c, AAR_Startup__c, AAR_Outreach__c, AAR_Professional_Activity__c.
- Every object shows Deployment Status = Deployed.
- AAR_Submission__c: Activities = Enabled, Chatter = Enabled.
- 'AAR Submission Record Page' is listed with Type = Org Default (highlights panel + Details + Related + Activity sidebar).
- AAR_Admin and AAR_PI_Access permission sets exist and cover all 14 AAR objects.

[] PASS [] FAIL Notes: _____

VAL-02 All 3 Automation Flows Are Active

WHERE TO GO: Setup > Quick Find > type 'Flows' > click Flows under Process Automation

1. In the Flows list, type 'AAR' in the search box.
2. Check the Status column for each of the 3 AAR flows listed below.
3. If any show 'Inactive', click the flow name, then click Activate.

YOU SHOULD SEE:

- Flow_AAR_Submission_Trigger -- Status: Active (ID: 301Aq000012zVjeIAE)
- Flow_AAR_Return_Notification -- Status: Active (ID: 301Aq000012zVjdIAE)
- Flow_Annual_AAR_Rollover -- Status: Active, scheduled daily starting 2027-01-01 at 01:00 UTC (ID: 301Aq000012znGfIAI)
- All 3 flows show a green Active status badge.

TIP: The Approval Process (VAL-03) is a separate feature -- it is NOT a Flow and will not appear in this list. VAL-03 is Phase 2 and not yet deployed.

[] PASS [] FAIL Notes: _____

VAL-03 Approval Process Is Active [PHASE 2 -- NOT YET DEPLOYED]**WHERE TO GO:** Setup > Quick Find > type 'Approval Processes' > click Approval Processes

1. In the Manage Approval Processes For dropdown, select 'AAR Submission'.
2. Find the row for 'Approval_Process_AAR_Submission'.
3. Confirm the Active checkbox in that row is ticked (checked).
4. Click the process name and review the two approval steps: Step 1 = Research Admin, Step 2 = Institute Director.

YOU SHOULD SEE:

- Approval_Process_AAR_Submission is listed with Active = checked.
- Step 1 approver is assigned to the AAR Research Admin role/profile.
- Step 2 approver is assigned to the Institute Director role/profile.
- Both steps show 'Reject' action = 'Set Status to Returned for Revision'.

WARNING: PHASE 2 -- The Approval Process has NOT been created yet. This test will FAIL in the current sandbox. Skip this card and mark it N/A for the demo. The 2-step approval workflow is the top priority for the next sprint.

☐ PASS ☐ FAIL Notes: _____

VAL-04 Record Visibility Is Set to Private (OWD) [PHASE 2 -- MANUAL ORG CONFIG REQUIRED]**WHERE TO GO:** Setup > Quick Find > type 'Sharing Settings' > click Sharing Settings

1. Scroll down to the 'Default Internal Access' column in the object list.
2. Find the row for 'AAR Submission'.
3. Confirm both Internal and External access columns read 'Private'.
4. Scroll through the list and find each AAR__child object. Confirm they all read 'Controlled by Parent'.

YOU SHOULD SEE:

- AAR Submission (AAR_Submission__c) shows Default Internal Access = Private.
- All 13 child objects (AAR_Appointment__c through AAR_Professional_Activity__c) show 'Controlled by Parent'.
- The criteria-based sharing rule for the Brain & Spinal Cord pillar is listed under 'AAR Submission Sharing Rules'.

WARNING: PHASE 2 -- OWD for AAR_Submission__c has NOT been set to Private and the sharing rule has NOT been deployed. This must be configured manually in Setup by a System Admin before the sharing-based tests (VAL-06, VAL-18) will work.

☐ PASS ☐ FAIL Notes: _____

VAL-05 Restricted Fields Are Hidden from the Scientist Profile [PHASE 2 -- FLS NOT YET CONFIGURED]**WHERE TO GO:** Setup > Quick Find > type 'Profiles' > click Profiles > click 'AAR Scientist'

1. On the AAR Scientist profile page, click 'Field-Level Security' (or scroll to it).
2. Find 'AAR Publication' in the object list and click View.
3. Look for the row 'WOS (Office Use Only)' -- confirm Visible = unchecked.
4. Go back, then repeat for AAR IP Disclosure, AAR Patent, AAR License, and AAR Startup. In each case, find TDC Code and confirm Visible = unchecked.

YOU SHOULD SEE:

- WOS__c on AAR Publication: Visible = No / Read Access = No for AAR Scientist.
- TDC_Code__c on AAR IP Disclosure: Visible = No for AAR Scientist.
- TDC_Code__c on AAR Patent: Visible = No for AAR Scientist.
- TDC_Code__c on AAR License: Visible = No for AAR Scientist.
- TDC_Code__c on AAR Startup: Visible = No for AAR Scientist.

TIP: These same fields SHOULD be visible on the AAR Research Admin and AAR Institute Leadership profiles once FLS is configured.

WARNING: PHASE 2 -- The AAR Scientist profile and Field-Level Security for WOS__c and TDC_Code__c have NOT been configured. The 3 custom profiles (AAR Scientist, AAR Research Admin, AAR Institute Leadership) must be created and FLS set before this test can pass.

☐ PASS ☐ FAIL Notes: _____

PHASE 2 -- Scientist Experience

Log in as Dr. Sarah Chen (AAR Scientist profile). Estimated time: 25 minutes.

VAL-06 Scientist Sees Only Their Own AAR Records

WHERE TO GO: App Launcher (9-dot grid, top-left) > type 'AAR Submissions' > click AAR Submissions

1. On the AAR Submissions list view, click 'All AAR Submissions' in the dropdown (or check the default list view).
2. Look at the records shown. Note the names in the Scientist column.
3. Try searching for a submission that belongs to a different scientist (e.g. change the filter to a different name).

YOU SHOULD SEE:

- The list only shows records where the Scientist field = Dr. Sarah Chen.
- No other scientists' submissions are visible -- the list is empty when filtered to another name.
- This confirms the Private OWD and record ownership are working correctly.

☐ PASS ☐ FAIL Notes: _____

VAL-07 Open the Draft Annual Report for 2025 -- Verify Record Page Layout

WHERE TO GO: AAR Submissions list > click the Draft record for Reporting Year 2025

1. Click the record name (e.g. SUB-0001) to open it.
2. Confirm the page has a highlights panel at the top, a Details tab (active by default), a Related tab, and an Activity sidebar on the right.
3. On the Details tab, scroll through all 9 sections: Identity, Research Profile, Lay Summary, Context - Leave & Circumstances, Circumstances Affecting Productivity, Clinical Duties, Compliance Declarations, Feedback on Form, System Information.
4. In Identity: confirm Submission Status = Draft (or Final), Submission Name = SUB-xxxx.
5. Click Edit -- confirm all fields are editable including Scientist, Reporting Year, Krembil Pillar, Research Keywords, all checkboxes.
6. Scroll to Compliance Declarations: confirm all 5 checkboxes (Mandatory Training, Patient Engagement, CMARS, Grants in Good Standing, Form Confirmed) are unchecked.
7. Click Cancel to exit Edit mode.
8. Click the Related tab -- confirm all 13 related lists are present (Appointments, Grants, Publications, Awards, HQP, Teaching, Presentations, IP Disclosures, Patents, Licenses, Startups, Outreach, Professional Activities).

YOU SHOULD SEE:

- Record opens with highlights panel, Details tab active, Related tab, and Activity sidebar (timeline).
- All 9 layout sections are visible when clicking Edit: Identity, Research Profile, Lay Summary, Context - Leave & Circumstances, Circumstances Affecting Productivity, Clinical Duties, Compliance Declarations, Feedback on Form, System Information.
- Krembil-specific fields visible in Identity: Krembil Pillar, Krembil Sub Grouping, Research Career Stage, Reporting Year, Reporting Start/End Date.
- 5 compliance checkboxes present and unchecked.
- Related tab shows 13 separate child object sections with New buttons in each.
- Activity sidebar shows the activity timeline (Tasks, Emails, Chatter).

TIP: Sections with no data entered show as collapsed or hidden in view mode -- click Edit to see all 9 sections in full. This is standard Lightning behaviour.

☐ PASS ☐ FAIL Notes: _____

VAL-08 Fill In the Research Profile and Context Sections**WHERE TO GO:** Same record -- click Edit at the top of the page

1. In Research Keywords, select any 3 values from the multi-select picklist.
2. In Lay Summary of Research, type: 'Our lab studies neurodegeneration with a focus on Parkinson disease mechanisms.'
3. In Protected Time for Research, enter: 60
4. In Section 3, in Circumstances Affecting Productivity, type: 'Parental leave Jan-Apr 2025 reduced output. Full productivity resumed May 2025.'
5. Set Leave Start Date to 01/01/2025 and Leave End Date to 30/04/2025.
6. Click Save.

YOU SHOULD SEE:

- Record saves without errors.
- Research Keywords shows 3 selected values.
- Lay Summary text is saved.
- Leave Start Date = 01/01/2025 and Leave End Date = 30/04/2025 are both displayed.
- Circumstances Affecting Productivity shows the text you entered.

TIP: The Circumstances field is the most important field in the entire form. Evaluators read this before looking at any publication or grant numbers.

☐ PASS ☐ FAIL Notes: _____

VAL-09 Add an Appointment Record**WHERE TO GO:** Scroll down to the 'AAR Appointments' related list > click New

1. Set Appointment Category = University.
2. Enter Institution = University of Toronto.
3. Enter Faculty = Faculty of Medicine.
4. Enter Appointment Title = Associate Professor.
5. Set Appointment Type = Cross-Appointment.
6. Click Save.

YOU SHOULD SEE:

- New AAR Appointment record created and appears in the Appointments related list.
- The related list row shows: University of Toronto, Associate Professor.

☐ PASS ☐ FAIL Notes: _____

VAL-10 Add a Grant Record (Funded - Active)**WHERE TO GO:** Scroll to 'AAR Grants' related list > click New

1. Set Grant Status = Funded - Active.
2. Set Funding Type = Operating Grant.
3. Enter Funding Source = CIHR.
4. Set Scientist Role = Principal Investigator (PI).
5. Enter Grant Title = Neuroinflammatory Pathways in Parkinson Disease.
6. Set Total Award Amount = 500000.
7. Set Amount Received This Year = 100000.
8. Click Save.

YOU SHOULD SEE:

- Grant record saves successfully.
- The grant appears in the AAR Grants related list.
- NOTE: The 'Total Active Grants' rollup summary field is Phase 2 (pending Lookup-to-MasterDetail conversion) and will not yet increment.

[] PASS [] FAIL Notes: _____

VAL-11 Add a Peer-Reviewed Publication**WHERE TO GO:** Scroll to 'AAR Publications' related list > click New

1. Set Publication Type = Peer-Reviewed.
2. Set Article Type = Original Research.
3. Enter Article Title = LRRK2 Kinase Activity and Synaptic Vesicle Trafficking.
4. Enter Author List = Chen S, Patel A, Williams R.
5. Enter Source/Journal = Nature Neuroscience.
6. Set ePub Date = 15/06/2025.
7. Enter DOI = <https://doi.org/10.1038/nn.12345>
8. Click Save.

YOU SHOULD SEE:

- Publication record saves without errors.
- Publication appears in the AAR Publications related list.
- NOTE: The 'Total Peer Publications' rollup summary field is Phase 2 (pending Lookup-to-MasterDetail conversion) and will not yet increment.

[] PASS [] FAIL Notes: _____

VAL-12 Peer-Reviewed Publication Without ePub Date Is Blocked**WHERE TO GO:** AAR Publications related list > click New (create a second test publication)

1. Set Publication Type = Peer-Reviewed.
2. Enter Article Title = Test Article -- Validation Check.
3. Leave the ePub Date field blank.
4. Click Save.

YOU SHOULD SEE:

- IMPORTANT: the save is BLOCKED with an error on the ePub Date field.
- Error message reads: 'ePub Date is required for peer-reviewed publications.'
- The record is NOT created. Click Cancel after confirming the error appears.

WARNING: If the save succeeds without an ePub Date, the validation rule is not active. Check Setup > Object Manager > AAR Publication > Validation Rules > Peer_Review_Needs_Epub_Date and ensure it is Active.

[] PASS [] FAIL Notes: _____

VAL-13 Add a Highly Qualified Personnel (HQP) Trainee**WHERE TO GO:** Scroll to 'HQP' related list > click New

1. Enter Trainee Last Name = Patel.
2. Enter Trainee First Name = Arjun.
3. Enter Position/Title = PhD Student.
4. Set Employment Type = Full-Time.
5. Set Supervisor Role = Primary Supervisor.
6. Click Save.

YOU SHOULD SEE:

- HQP record saves and appears in the related list.
- NOTE: The 'Total HQP' rollup summary field is Phase 2 (pending Lookup-to-MasterDetail conversion) and will not yet increment.

[] PASS [] FAIL Notes: _____

VAL-14 Add Teaching, Award, Presentation, and Outreach Records**WHERE TO GO:** Use each corresponding related list. Click New, fill required fields, Save.

1. AAR Teaching: Instruction Format = Course, Course Title = Neuroscience 301, Hosting Institution = University of Toronto. Save.
2. AAR Award: Award Name = CIHR New Investigator Award, Awarding Agency = CIHR, Award Category = Research Excellence. Save.
3. AAR Presentation: Presentation Type = Keynote, Presentation Title = Advances in Parkinson Therapy, Event Name = World Neurology Congress. Save.
4. AAR Outreach: Outreach Type = Public Outreach, Activity Name = Brain Awareness Week Talk, Event Date = 15/03/2025. Save.
5. AAR Professional Activity: Activity Type = Grant Reviewing, Organization = CIHR, Role = Panel Reviewer. Save.

YOU SHOULD SEE:

- 5 new child records created across 5 related lists -- Teaching, Award, Presentation, Outreach, Professional Activity.
- Each related list shows the new record without errors.

TIP: You do not need to add IP Disclosure, Patent, License, or Startup records for this test -- those are validated separately in Phase 5.

[] PASS [] FAIL Notes: _____

VAL-15 Attempting to Submit Without Compliance Checks Is Blocked**WHERE TO GO:** Edit the AAR Submission record

1. Click Edit on the main AAR Submission record.
2. Leave ALL 5 compliance checkboxes unchecked.
3. Change the Status picklist from Draft to Submitted.
4. Click Save.

YOU SHOULD SEE:

- IMPORTANT: the save is BLOCKED. An error appears on the Mandatory Training Complete field.
- Error message: 'MyLearning training must be completed before you can submit your AAR.'
- The Status does NOT change to Submitted. The record remains in Draft.

WARNING: If the status changes to Submitted without the checkboxes being ticked, the validation rules are not working. Check Setup > Object Manager > AAR Submission > Validation Rules and confirm all 4 submission-blocking rules are Active.

[] PASS [] FAIL Notes: _____

VAL-16 Complete the Compliance Section and Submit the AAR**WHERE TO GO:** Edit the AAR Submission record

1. Click Edit.
2. Tick all 5 compliance checkboxes: Mandatory Training Complete, Patient Engagement Survey Complete, CMaRS Disclosure Updated, Grants in Good Standing, Form Confirmed Accurate.
3. Optionally type a note in the 'Feedback on Form' field.
4. Change Status to Submitted.
5. Click Save.

YOU SHOULD SEE:

- Record saves successfully with Status = Submitted.
- The Submission Date/Time field is now populated with today's date and time (auto-set by the Flow).
- A confirmation message or toast notification may appear in Salesforce.

[] PASS [] FAIL Notes: _____

VAL-17 Scientist Receives a Confirmation Email**WHERE TO GO:** Check the email inbox for Dr. Sarah Chen (the Scientist user's email address)

1. Open the inbox for the email address associated with Dr. Sarah Chen's Salesforce user.
2. Look for an email received in the last few minutes.
3. Open the email and check its content.

YOU SHOULD SEE:

- Email received with subject line referencing the AAR submission.
- Email body includes a link to the AAR Submission record in Salesforce.
- Email is addressed to Dr. Sarah Chen.

TIP: If email deliverability is set to 'System email only' in the sandbox, use a sandbox email relay or update Setup > Email > Deliverability > Access Level to 'All email' for testing.

[] PASS [] FAIL Notes: _____

PHASE 3 -- Research Admin Experience

Log in as Research Admin -- Brain & Spinal Cord. Estimated time: 10 minutes.

VAL-18 Admin Sees Only Brain & Spinal Cord Pillar Records

WHERE TO GO: App Launcher > AAR Submissions > open the All AAR Submissions list view

1. Look at the Krembil Pillar column in the list. Note which pillar values appear.
2. Try to open a record belonging to a different pillar (e.g. Arthritis or Vision) if any exist.

YOU SHOULD SEE:

- The list shows only records where Krembil Pillar = Brain & Spinal Cord.
- Records from other pillars (Arthritis, Vision, Neurosciences) are NOT visible.
- Dr. Sarah Chen's submitted record appears in the list.

☐ PASS ☐ FAIL Notes: _____

VAL-19 Admin Receives the Submission Notification Email

WHERE TO GO: Check the email inbox for the Research Admin user

1. Open the inbox for the Research Admin user.
2. Look for an email that arrived after Dr. Sarah Chen submitted (VAL-16).
3. Open the email and verify its contents.

YOU SHOULD SEE:

- Email received notifying the admin that a Brain & Spinal Cord submission was submitted.
- Email identifies the scientist (Dr. Sarah Chen) and includes a link to the record.

☐ PASS ☐ FAIL Notes: _____

VAL-20 WOS Field Is Visible to Admin But Was Hidden from Scientist

WHERE TO GO: Open Dr. Sarah Chen's AAR Submission > go to the AAR Publications related list > click the publication record

1. Open the peer-reviewed publication you created in VAL-11.
2. Scroll through the record fields and look for a field labelled 'WOS (Office Use Only)'.
3. Note that this field IS visible here as the Admin.
4. For comparison, open a separate browser window or incognito tab, log in as the Scientist (Dr. Sarah Chen), navigate to the same publication, and confirm the WOS field does NOT appear.

YOU SHOULD SEE:

- As Admin: WOS (Office Use Only) field is visible on the publication record.
- As Scientist: WOS field is completely absent from the page -- not visible, not read-only, simply not there.

☐ PASS ☐ FAIL Notes: _____

VAL-21 Admin Enters the WOS ID on the Publication**WHERE TO GO:** Still on the Publication record (logged in as Admin) > click Edit

1. Click Edit on the publication record.
2. In the WOS (Office Use Only) field, type: WOS:000456789012.
3. Click Save.

YOU SHOULD SEE:

- Publication saves successfully with the WOS ID populated.
- The WOS field displays the value you entered.
- If you refresh as the Scientist, the WOS field is still not visible.

[] PASS [] FAIL Notes: _____

VAL-22 Admin Initiates the Step 1 Approval [PHASE 2 -- APPROVAL PROCESS NOT YET DEPLOYED]**WHERE TO GO:** Navigate back to Dr. Sarah Chen's AAR Submission record (as Admin)

1. On the AAR Submission record, look for the 'Submit for Approval' button. It may be in the page header or in an Approval History section at the bottom.
2. Click 'Submit for Approval'.
3. If prompted for a comment, enter: 'Data verified. All publications and grants confirmed.'
4. Click Submit.

YOU SHOULD SEE:

- The record enters the approval process. Approval History shows a pending approval entry.
- A notification or email is dispatched to the Institute Director (Step 2 approver).
- The record is now locked for editing by the Scientist until the process completes.

TIP: Once deployed: if you do not see a 'Submit for Approval' button, ensure Status = Submitted and the Approval Process is Active.**WARNING:** PHASE 2 -- The Approval Process has not been created. There will be no 'Submit for Approval' button. Skip VAL-22, VAL-23, VAL-25, VAL-26 and mark them N/A.

[] PASS [] FAIL Notes: _____

VAL-23 Admin Approves at Step 1 [PHASE 2]**WHERE TO GO:** Open the approval request from the Admin's notification bell or from the Approval History section on the record

1. Click the pending approval request to open it.
2. Review the summary of the record.
3. Click Approve.
4. If prompted for a comment, enter: 'Step 1 approved by Research Admin.'

YOU SHOULD SEE:

- Approval step 1 is marked as Approved in the Approval History.
- An approval request is automatically dispatched to the Institute Director for Step 2.

[] PASS [] FAIL Notes: _____

PHASE 4 -- Institute Director Experience

Log in as Institute Director (AAR Institute Leadership profile). Estimated time: 8 minutes.

VAL-24 Director Sees All Submissions Across All Pillars

WHERE TO GO: App Launcher > AAR Submissions > open All AAR Submissions

1. Look at the Krembil Pillar column. Check whether records from multiple pillars appear.
2. If only seed data exists, this may show just Brain & Spinal Cord -- that is acceptable if no other pillar data was created.
3. Confirm that Dr. Chen's submitted record IS visible here.

YOU SHOULD SEE:

- AAR Submission records are visible regardless of pillar (Institute Leadership has full read/write access).
- Dr. Sarah Chen's submission is visible and shows Status = Submitted (or Under Review if the approval has moved it).

☐ PASS ☐ FAIL Notes: _____

VAL-25 Director Approves at Step 2 -- Status Becomes Approved [PHASE 2]

WHERE TO GO: Open the pending approval request from the notification bell (top-right) or Approval History on the record

1. Click the Step 2 approval request to open it.
2. Review the submission details.
3. Click Approve.
4. Navigate back to Dr. Chen's AAR Submission record and refresh the page.

YOU SHOULD SEE:

- Status on the AAR Submission record = Approved.
- Approval History shows both Step 1 (Admin) and Step 2 (Director) as Approved.
- The record is now in its final approved state -- no further workflow actions are pending.

☐ PASS ☐ FAIL Notes: _____

VAL-26 Test the Rejection Path -- Status Returns to Scientist [PHASE 2]

WHERE TO GO: Create a second test AAR Submission in Draft status, complete compliance, submit, then submit for approval

1. Quickly create a minimal second test submission: any scientist, Status = Draft, check all 5 compliance boxes, change Status to Submitted.
2. Submit the record for Approval.
3. As Admin: open the Step 1 approval request and click Reject. Enter a comment: 'Missing grant details.'
4. Navigate to the AAR Submission record and check its Status.
5. Check the email inbox of the Scientist user.

YOU SHOULD SEE:

- Status on the record changes to Returned for Revision.
- Scientist receives an email notifying them of the return, including the reviewer comment 'Missing grant details.'
- The record is unlocked and the Scientist can edit it again.

TIP: You can delete this second test record after validating the rejection path. It is not needed for the demo.

☐ PASS ☐ FAIL Notes: _____

VAL-27 Institute Research Overview Dashboard Shows Live Data [PHASE 2 -- NOT YET DEPLOYED]**WHERE TO GO:** App Launcher > Dashboards > Institute Research Overview

1. Click on the Institute Research Overview dashboard.
2. Click Refresh (top-right of the dashboard) to pull the latest data.
3. Look at each of the 4 dashboard components.

YOU SHOULD SEE:

- Component 1 (Submission Rate by Pillar): shows at least 1 bar for Brain & Spinal Cord with a non-zero completion percentage.
- Component 2 (Total Active Funding): shows a non-zero funding figure (from the Funded-Active grant added in VAL-10).
- Component 3 (Publications by Career Stage): shows at least 1 publication in the Mid Career bar.
- Component 4 (HQP Pipeline): shows at least 1 trainee counted under PhD Student.

WARNING: PHASE 2 -- Reports and dashboards have NOT been deployed. This test will FAIL. The Institute Research Overview dashboard and all underlying reports are in the next sprint. Mark this card N/A for current validation.

☐ PASS ☐ FAIL Notes: _____

VAL-28 Submission Status by Pillar Report Returns Data [PHASE 2 -- NOT YET DEPLOYED]**WHERE TO GO:** App Launcher > Reports > Submission Status by Pillar > click Run

1. Click Run Report (or Run) to execute the report.
2. Look at the rows returned.
3. Try filtering by Status = Approved.

YOU SHOULD SEE:

- Report runs without errors.
- At least one row is returned showing Brain & Spinal Cord pillar.
- Dr. Sarah Chen's submission appears with Status = Approved.
- HQP Pipeline by Position report also runs: navigate to it and confirm Arjun Patel (PhD Student) appears.

WARNING: PHASE 2 -- Custom reports have NOT been deployed. This test will FAIL. Mark N/A for current validation.

☐ PASS ☐ FAIL Notes: _____

PHASE 5 -- Data Integrity Spot Checks

Log in as System Administrator. Estimated time: 5 minutes.

VAL-29 Cannot Create a Duplicate AAR for the Same Scientist and Year [PHASE 2 -- RULE NOT YET DEPLOYED]

WHERE TO GO: App Launcher > AAR Submissions > click New

1. Click New to create a new AAR Submission.
2. Set Scientist = Dr. Sarah Chen.
3. Set Reporting Year = 2025 (same as the existing record).
4. Fill in any required fields (Pillar, Career Stage, etc.).
5. Click Save.

YOU SHOULD SEE:

- IMPORTANT: the save is BLOCKED by the duplicate rule.
- Salesforce shows a duplicate warning or error explaining that a record already exists for this scientist and year.
- No second record is created.

WARNING: PHASE 2 -- The Duplicate Rule for AAR_Submission__c has NOT been created. The duplicate will NOT be blocked. Create the rule in Setup > Duplicate Rules before running this test. Mark N/A for current validation.

☐ PASS ☐ FAIL Notes: _____

VAL-30 Grant Amount Received Cannot Exceed Total Award Amount [PHASE 2 -- RULE NOT YET CONFIRMED]

WHERE TO GO: Open any AAR_Grant__c record > click Edit

1. Open the grant you created in VAL-10 (CIHR, Total Award Amount = 500,000).
2. Click Edit.
3. Change Amount Received This Year to 600,000 (which exceeds the 500,000 total).
4. Click Save.

YOU SHOULD SEE:

- IMPORTANT: the save is BLOCKED.
- Error appears on Amount Received This Year: 'Amount received this year cannot exceed the total award amount.'
- The grant record is not updated.
- Change the value back to 100,000 and Save -- this should succeed.

WARNING: PHASE 2 -- The grant amount cross-field validation rule on AAR_Grant__c has NOT been confirmed as deployed. Check Setup > Object Manager > AAR Grant > Validation Rules before running this test. Mark N/A if the rule is absent.

☐ PASS ☐ FAIL Notes: _____

VAL-31 Innovation Records: TDC Code Hidden from Scientist, Visible to Admin [PHASE 2 -- FLS NOT YET CONF]**WHERE TO GO:** Create one IP Disclosure, one Patent, one License, and one Startup record on the AAR Submission (as Scientist)

1. As Scientist (Dr. Sarah Chen): go to each of the 4 Innovation-related lists -- IP Disclosures, Patents, Licenses, Startups -- and create one record in each with minimum required fields.
2. For IP Disclosure: enter any Disclosure Date, Invention Title. Save.
3. For Patent: enter any Filing Date, Patent Title. Save.
4. For License: set License Type = Exclusive, enter any Licensing Party. Save.
5. For Startup: enter any Company Name, Description. Save.
6. On each record, confirm that the TDC Code field is NOT visible to you as the Scientist.
7. Switch to the Admin login. Open one of the same records and confirm TDC Code IS visible.

YOU SHOULD SEE:

- As Scientist: all 4 records created successfully. TDC Code field is absent from every record view.
- As Admin: TDC Code field is visible and editable on all 4 object types.

WARNING: PHASE 2 -- FLS for TDC_Code__c has NOT been configured. The field will be visible to all users regardless of profile. Mark N/A until profiles and FLS are set up.

☐ PASS ☐ FAIL Notes: _____

VAL-32 Rollup Summary Counters Are Accurate on the Master Record [PHASE 2 -- ROLLUP FIELDS PENDING]**WHERE TO GO:** Open Dr. Sarah Chen's Approved AAR Submission record

1. Scroll to the top of the record and locate the 3 rollup summary fields.
2. Check Total Peer Publications -- compare to the number of Peer-Reviewed publications in the related list.
3. Check Total Active Grants -- compare to the number of Funded-Active grants in the related list.
4. Check Total HQP -- compare to the total number of records in the HQP related list.

YOU SHOULD SEE:

- Total Peer Publications = number of publications with Publication Type = Peer-Reviewed (should be 1 based on VAL-11).
- Total Active Grants = number of grants with Grant Status = Funded - Active (should be 1 based on VAL-10).
- Total HQP = total HQP child records regardless of type (should be 1 based on VAL-13).
- All 3 rollup values match the actual child record counts.

WARNING: PHASE 2 -- Rollup Summary fields require MasterDetail relationships, but AAR_Grant__c, AAR_Publication__c, and AAR_HQP__c currently use Lookup fields to AAR_Submission__c. These 3 fields cannot be created until Lookup relationships are converted to MasterDetail in Setup. This is the top data-model task in Phase 2. Mark N/A for current validation.

☐ PASS ☐ FAIL Notes: _____

VALIDATION SCORECARD -- Record Your Results Here

Mark each test PASS or FAIL as you complete it. Tests marked [P2] are Phase 2 items not yet deployed -- mark them N/A rather than FAIL. All Phase 1 tests (no [P2] marker) must show PASS before the demo is cleared to proceed. If any Phase 1 test is FAIL, note what you saw in the Notes column and contact the implementation team.

Test ID	What Is Being Tested	PASS / FAIL / N/A
VAL-01	All 14 custom objects deployed	
VAL-02	All 3 automation flows active (IDs confirmed)	
VAL-03	[P2] Approval process active with 2 steps	N/A
VAL-04	[P2] OWD = Private / child objects = Controlled by Parent	N/A
VAL-05	[P2] FLS: WOS and TDC fields hidden from Scientist profile	N/A
VAL-06	[P2] Scientist sees only their own records (needs OWD)	N/A
VAL-07	Draft AAR opens with correct 9-section layout + record page	
VAL-08	Research Profile and Context sections save correctly	
VAL-09	Appointment record adds to related list	
VAL-10	Funded-Active grant record saves (rollup counter is P2)	
VAL-11	Peer-reviewed publication saves (rollup counter is P2)	
VAL-12	Peer-reviewed publication WITHOUT ePub Date is blocked	
VAL-13	HQP trainee record saves (Total HQP rollup is P2)	
VAL-14	Teaching, Award, Presentation, Outreach, Prof. Activity add	
VAL-15	Submitting without compliance checkboxes is blocked (4 rules)	
VAL-16	Submission succeeds with all 5 checkboxes ticked	
VAL-17	Scientist receives confirmation email on submit	
VAL-18	[P2] Admin sees only Brain & Spinal Cord pillar (needs OWD)	N/A
VAL-19	Admin receives submission notification email	
VAL-20	[P2] WOS field visible to Admin but hidden from Scientist	N/A
VAL-21	Admin saves WOS ID on publication successfully	
VAL-22	[P2] Admin initiates Step 1 approval -- no approval process yet	N/A
VAL-23	[P2] Admin approves Step 1; Step 2 request sent to Director	N/A
VAL-24	Director sees all submissions across all pillars	
VAL-25	[P2] Director approves Step 2; Status = Approved	N/A
VAL-26	[P2] Rejection sets Status = Returned for Revision + email	N/A
VAL-27	[P2] Dashboard shows live data across 4 components	N/A
VAL-28	[P2] Reports run and return expected data	N/A
VAL-29	[P2] Duplicate AAR for same Scientist + Year is blocked	N/A
VAL-30	[P2] Grant amount received > total award amount is blocked	N/A
VAL-31	[P2] TDC Code fields hidden from Scientist on 4 objects	N/A
VAL-32	[P2] Rollup summary counters match child record counts	N/A
